

## **Policy on use of Messaging and Social Media Applications for Club Communications**

The personal contact information that may be available in WhatsApp groups and other social media groups and applications officially used by St. Coca's AC is intended to be used for club purposes only (such as communicating about training or other events we participate in). Members of these groups are asked to refrain from copying contact information of other people from these communication groups and from sending unsolicited messages etc. without first getting consent from the intended recipient. Members of the club have only consented to their contact details being added to these groups for official purposes mentioned above.

In addition, our social media groups and accounts on Whatsapp, Facebook, Instagram and Twitter are managed by several individuals and may change from year to year. We welcome followers of these profiles for the purpose of disseminating club and sport related information but as a general policy, we do not follow back or 'friend' personal accounts on these platforms due to respect for the privacy of those individuals, unless the profile represents another club or business or organisation.
